Code-Layout, Readability and Reusability

Date	30 September 2026
Team ID	6ab3ec14b5170a9b58b3a658
Project Name	Implement Client Script and UI Policy
Maximum Marks	5 Marks

Code Layout Checklist

S.No	Code Quality Parameter	Followed	Remarks
1	**Consistent Indentation**	Yes	Proper indentation and spacing are maintained in Client Script code.
2	**Proper File Structure**	Yes	Client Scripts and UI Policies are logically organized within the ServiceNow application.
3	**Meaningful Variable Names**	Yes	Variables use meaningful names that clearly represent their purpose.
4	**Function / Method Names**	Yes	Functions are given descriptive names based on the operation they perform.
5	**Code Comments**	Yes	Comments are added where necessary to explain important validation and business logic.
6	**Modular Design**	Yes	Client-side logic is separated into reusable functions where applicable.
7	**No Redundant Code**	Yes	Duplicate and unnecessary code is avoided.
8	**Error Handling**	Yes	Invalid user input is handled using validation messages and appropriate conditions.

Reusable Components / Modules

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Client Script	JavaScript	ServiceNow forms	High
2	UI Policy	ServiceNow	Multiple form fields	High
3	Client-side Validation Function	JavaScript	Form validation	High
4	UI Policy Actions	ServiceNow	Field visibility, mandatory and read-only controls	High
5	Validation Messages	JavaScript / ServiceNow	User input validation	Medium

Overall Code Quality Assessment

Aspect	Rating (1–5)	Comments
Code Layout & Structure	5	Client Scripts and UI Policies are logically organized and easy to manage.
Readability	5	Meaningful names, proper indentation, and clear logic improve readability.
Reusability	4	Validation functions and UI Policy configurations can be reused for similar forms.
Documentation / Comments	4	Important logic and validation operations are documented with comments.
Overall Score	**5**	The solution follows a clear, maintainable, and reusable structure.

.

Final Statement

The project follows a structured and readable coding approach. Client Scripts and UI Policies are organized properly, use meaningful names, handle user input appropriately, and provide reusable functionality for ServiceNow forms.
